

REVUE ROUMAINE  
DES  
SCIENCES TECHNIQUES  
SÉRIE  
ÉLECTROTECHNIQUE  
ET  
ÉNERGÉTIQUE

Tome 61, 2016, N° 3, April-Juin

Paraît quatre fois par an

Revue incluse dans "Thomson Reuters Science Citation Index Expanded (also known as SciSearch\*) and Journal Citation Reports/Science Edition"

Dedicated to the 150<sup>th</sup> anniversary of the Romanian Academy

S o m m a i r e

**Électrotechnique et électroénergétique**

IOAN R. CIRIC, FLOREA IOAN HANTILA, MIHAI MARICARU, GEORGE-MARIAN VASILESCU, A novel approach to the analysis of nonlinear magnetic fields produced by coils with imposed voltages.....	213
ABDELAZIZ LADJIMI, ABDESSELAM BABOURI, Modeling of frequency effects in a Jiles-Atherton magnetic hysteresis model.....	217
LAURENTIU DUMITRU, VERONICA MANESCU (PALTANEA), GHEORGHE PALTANEA, HORIA GAVRILA, Magnetocrystalline anisotropy in thin grain oriented silicon iron alloy cut through different technologies.....	221
CAMELIA PETRESCU, CRISTINA VATAVU, IUSTINA ZAHARIA, Power analysis of single-phase nonlinear loads in accordance with IEEE standards, based on real time signal recordings.....	227
TAREK BENMILOUD, Proportional integrator-neurofuzzy observer of induction motor.....	233
ELAKHDAR BENYOUSSEF, ABDELKADER MEROUFEL, SAID BARKAT, Neural network and fuzzy logic direct torque control of sensorless double star synchronous machine.....	239
SALAH TAMALOUZT, KASSA IDJDARENE, TOUFIK REKIOUA, RACHID ABDESSEMED, Direct torque control of wind turbine driven doubly fed induction generator.....	244
CHENCHEN LIANG, MOHAMED-FOUAD BENKHORIS, JEAN-CLAUDE LE CLAIRE, MOURAD AIT-AHMED, Modeling and fault detection of five-phase synchronous generator under open-phase fault mode.....	250
HOCINE ABDELHAK AZZEDDINE, MUSTAPHA TIOURSI, DJAMEL-EDDINE CHAOUCH, BRAHIM KHIARI, An offline trained artificial neural network to predict a photovoltaic panel maximum power point.....	255
ADEL ABERBOUR, KASSA IDJDARENE, ZOUBIR BOUDRIES, Adaptable sliding mode control for wind energy application.....	258
FAYSSAL AMRANE, AZEDDINE CHAIBA, A novel direct power control for grid-connected doubly fed induction generator based on hybrid artificial intelligent control with space vector modulation.....	263
ISMAIL ZIANE, FARID BENHAMIDA, AMEL GRAA, Economic/emission dispatch problem with valve-point effect.....	269
ANANYO BHATTACHARYA, PRADIP KUMAR SADHU, ARITRA BHATTACHARYA, NITAI PAL, Voltage controlled hybrid resonant inverter – an essential tool for induction heated equipment.....	273

**Électronique et transmission de l'information**

SALAH HANAFI, MOHAMMED KARIM FELLAH, MOHAMMED YAICHI, MOHAMMED-FOUAD BENKHORIS, Control of stacked multicellular inverter.....	278
DJURDJE PERIŠIĆ, MIROSLAV BOJOVIĆ, Multipurpose time recursive phase locked loop.....	283
VLADIMIR RASTORGUEV, ANDREY ANANENKOV, VADIM SKOSYREV, DMITRY MARIN, Evaluation of visibility phenomenon in clearances of clutter in the short-range radar.....	289
LIHUA DENG, JUNTAO FEI, CHANGCHUN CAI, Global fast terminal sliding mode control for an active power filter based on a backstepping design.....	293
AJAY KUMAR KUSHWAHA, SAJAL KUMAR PAUL, Chua's oscillator using operational transresistance amplifier.....	299
LUCIAN PARVULESCU, DAN FLORICAU, Analysis of five-level unidirectional rectifiers.....	304
